

Universal Steering Wheel Shift Paddles

Features

- Very light (only weights 260 g - including the mounting plate)
- Magnetically assisted
- Can be mounted individually to any steering wheel
- Mounting plates for flat, 65mm and 95mm dished steering wheels available (6 hole)
- Aircraft grade aluminium
- Waterproof
- IP68 rated

Technical specifications

Dimensions L x W x H	350x 150 x 20 mm
Weight	260 g
Operating temperature	-20 ... 80°C

Assembling

You received 2 shift blocks, 2 carbon paddles and a mounting plate.

1. Mount your carbon paddles to the shift block. Use bolts ① you received attached to the shift block. Please refer to “General Service/Mounting Rules”.

2. Mount both shift blocks to the mounting plate. Use bolts ② you received attached to the shift block. You can adjust the position of the shift paddle by moving it in the slot. Please note that there are left and right shift blocks. Please refer to “General Service/Mounting Rules”.

3. Mounting the sub plates (330 and 350 mm steering wheel)

- a) Flat steering wheel: use dished mounting plate

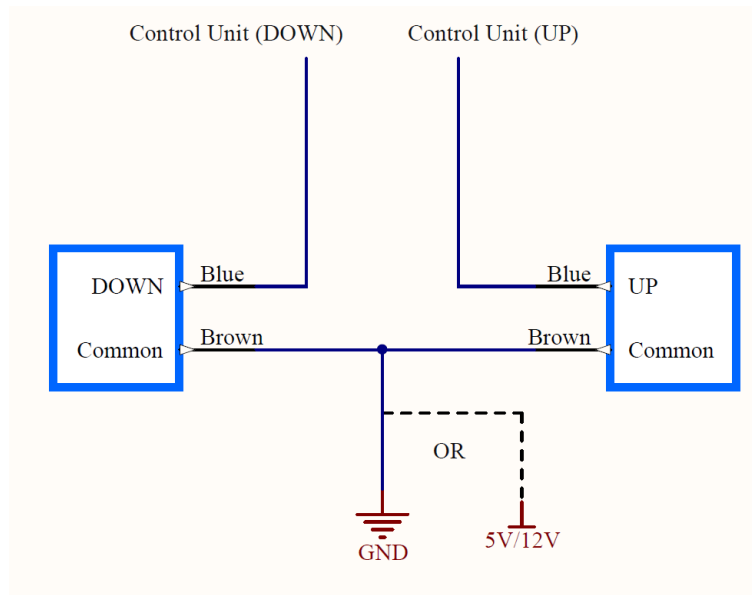

- b) 65mm dished steering wheel: use flat mounting plate

- c) 95mm dished steering wheel: use dished mounting plate

Wiring diagram

Please note: all latest paddles come with 2 wires (all black) so it does not matter which colors you connect.
